## EDUCATION

### Middle Tennessee State University

*Bachelor of Science in Computer Science, Cybersecurity Concentration*

- GPA: 3.6/4.0

Murfreesboro, TN

Jan 2024 - Dec 2025

### Motlow State Community College

*Associate of Science in Computer Science*

- GPA: 3.6/4.0

Smyrna, TN

Aug 2021 - Dec 2023

## EXPERIENCE

### Software Engineering Capstone

*Antage (CSCI 4700 Industry Partner)*

- Designed and developed the complete frontend interface from scratch for a .NET-based test tracking and TDD solution, collaborating with a 6-person development team.
- Implemented RESTful API integration and data persistence layer using MySQL and Entity Framework.
- Applied software engineering best practices including integration testing, code reviews, and agile methodologies.

Jan 2025 - May 2025

Murfreesboro, TN

### Sales Associate

*Walmart*

- Delivered customer service to 100+ customers daily, resolving inquiries and providing technical product recommendations for electronics and computing devices.
- Managed inventory systems and maintained accurate stock records in a high-volume retail environment.
- Demonstrated strong communication and problem-solving skills in a fast-paced team setting.

Jul 2021 - Sep 2025

Murfreesboro, TN

## PROJECTS

### OSINT Toolkit - Public Data Removal | *Python, JavaScript, HTML/CSS*

Jun 2025 - Present

- Developing a privacy-focused OSINT assistant that aggregates personal data from multiple public-record sources including phone numbers, emails, addresses, and usernames.
- Building an AI-powered chatbot to guide users through opt-out processes across free and paid data broker sites.
- Implementing automated workflows to streamline personal data removal requests and suppress online exposure.
- Designing for accessibility to serve both technical and non-technical users with a free, open-source solution.

### SOC Dashboard | *JavaScript, Node.js, MySQL, HTML/CSS*

Aug 2025 - Dec 2025

- Designed and developed the frontend interface for a Security Operations Center dashboard featuring an interactive world map, real-time charts, and advanced filtering capabilities.
- Integrated RESTful APIs to connect the Node.js backend with the MySQL database for dynamic data retrieval and updates.
- Built CRUD functionality for incident management, allowing users to add, edit, and delete security incidents.
- Collaborated with a 4-person team to design the database schema tracking cyber incidents including threat types, severity levels, financial impact, and mitigation strategies.

## TECHNICAL SKILLS

**Programming Languages:** Python, JavaScript, C/C++, SQL (MySQL), HTML/CSS, C#

**Frameworks & Libraries:** Node.js, Express.js, .NET, Entity Framework, React

**Developer Tools:** Git, VS Code, Docker, Linux (CLI), Windows, macOS

**Databases:** MySQL

**Other Skills:** OSINT techniques, API development, software testing, technical support, troubleshooting

**Soft Skills:** Communication, teamwork, problem solving, adaptability, creativity

## LANGUAGES

Fluent in English and Arabic.
